

MARTIN WISMAN SRU 912

MARTIN WISMAN SRU 912

Šifra: 5623
Kategorija proizvoda: Pasivni zvučnici
Proizvođač: Martin Wisman

Cena: **379,00** EUR

Key Features

High degree of pattern control allows designers and installers to effectively control dispersion for clearer, more intelligible sound.

When properly arrayed, the unique, tightly focused coverage of each SRU loudspeaker helps minimize the overlap zones often found in conventional arrays. The result is a clearer sound image, and reduced interference throughout the coverage area of the array.

Proprietary mid-range engine specifically for the demands of engineered sound systems. They deliver smooth response and high reliability.

Newly styled marine-grade birch wood enclosure provides greater durability and strength. Steel grilles with acoustic filter foam enhance appearance.

Enclosure and grille available in black. They can be painted to blend into almost any environment. Sixteen steel rigging points (4 top, 4 bottom and 4 on each side) allow for convenient rigging.

Technical Specifications

Freq. Range (-10dB): 125Hz ~ 18kHz
Axial Sensitivity (1W/1m): 104dB
Max Calculated SPL: 135dB
Recommendatory High Pass Power: 100Hz
Continuous Power: 300W
Peak Power: 1200W
Dispersion (H x V): 60° x 40°
LF Transducer: 12"/75mm
HF Transducer: 1.4"/75mm
Crossover Frequency: 1400Hz
Nominal Impedance: 8Ω
Connector: Speakon NL4 x 2
Dim (H x W x D): 490 x 658 x 535mm
Net Weight : 36kg
Shipping Weight: 40kg
