drumkit, choirs and backing vocals. They also sound fantastic when used as overheads or for room miking.

Thanks to their three-stage pad and filter switches and the Sontronics' signature super-smooth high-frequency roll-off, the Sontronics STC-1S stereo pair is extremely versatile and gives outstanding results, regularly outclassing microphones that cost many times more! The Sontronics STC-1S mics will give a touch of class to any stereo miking application and when teamed up with Sontronics optional OMNI or HYPER capsules, the Sontronics STC-1S set becomes an extremely flexible and powerful tool.

The Sontronics STC-1S Small Diaphragm Microphones will open your ears to stunning sound... in stereo!
