Sontronics DM-1B - studijski mikrofon

Šifra: 14289
 Kategorija prozivoda: Kondenzatorski Studijski
 Proizvođač: SONTRONICS

Cena: **389,00** EUR

The Sontronics DM-1B Kick Drum Microphone is a British-designed large-diaphragm condenser microphone represents three years of research, design and development alongside top producers and drummers, and has become among the best-seller microphones for drum recording, both live and in the studio. The Sontronics DM-1B features a fixed cardioid pattern, created specifically for use with kick drum and bass instruments. With high sensitivity, low self-noise, -15dB attenuation pad and ability to handle up to 155dB SPL, the DM-1B delivers outstanding results on kick drum and also sounds fantastic on bass guitar cabinets.

The Sontronics DM-1B's incredible power handling will capture all the attack, resonance and energy from your kick drum and other bass instruments like nothing you've ever heard before! Because of the way the Sontronics DM-1B captures sound, it will also give brilliant results on any other instruments with low-frequency bias, from trombone and tuba to tenor or baritone saxophone, double bass and organ. Users also tell us that it sounds great on deep male vocals as well as rap and beatboxing.

The Sontronics DM-1B is designed with its fixed cardioid capsule facing out of the top end of the microphone (end-fire style) and can be positioned either to the front head of the drum or even pushed towards or slightly inside the soundhole of the kick drum.

If you're recording drum or bass instruments of any kind, the Sontronics DM-1B is a definite must-have for studio or live recording!

Sontronics DM-1B Kick Drum Microphone Applications

- Kick drum & orchestral bass drum
- Bass guitar cabinets
- Low brass (tuba, trombone)
- Bass clarinet, tenor/baritone sax
- Male vocals & rap/MCing

Sontronics DM-1B Kick Drum Microphone Features

- End-fire cardioid condenser
- Designed specifically for kick drum
- Fantastic on bass guitar cabs and other bass instruments
- Features high sensitivity, low self-noise, and -15dB attenuation
- Ability to handle up to 155dB SPL
- Road-tested by Flood, Alan Moulder, and Mark Rankin

Sontronics DM-1B Kick Drum Microphone Specifications

Polar Pattern: Cardioid

Pad: 0dB, -15dB

Frequency Response: 20Hz - 20kHz

Sensitivity: 6mV/Pa -45dB \pm 2dB (0dB = 1V/Pa @ 1,000Hz)

Impedance: =200 Ohms

Equivalent Noise Level: 14dB (A-Weighted)

Max. SPL (for 0.5% THD @ 1,000Hz): 155dB (with -15dB pad switched in)

Power: Phantom Power 48V Required

Connector: 3-Pin XLR

Weight: 829g

Dimensions: 144mm x 72mm x 72mm

Sontronics DM-1B Kick Drum Microphone Includes

Sontronics DM-1B Kick Drum Microphone

Adjustable Yoke Mount

Aluminium Flightcase

Lifetime Warranty
