

Sontronics DM-1T - studijski mikrofon

Šifra: 14291
Kategorija proizvoda: Kondenzatorski Studijski
Proizvođač: SONTRONICS

Cena: 179,00 EUR

studio.

The Sontronics DM-1T is a small-diaphragm condenser mic, with -10dB attenuation pad and is capable of capturing up to an impressive 135db SPL. It is designed to capture all the classic characteristics of your drum - the slap, boom and resonance of your tom tom. The Sontronics DM-1T and DM-1S microphones have slightly different frequency response and capture to get exceptional results, both live and in the studio.

While the Sontronics DM-1T is designed for rack and floor toms, it also gives a brilliant sound on your bongos, djembe, tabla and congas. It has been thoroughly tested to its limits by various session drummers, live musicians and producers, including Flood (U2, Killers, Arctic Monkeys) and Mark Rankin (Friendly Fires, Florence & The Machine).

Sontronics DM-1T Tom Microphone Applications

Rack and floor toms
Bongos
Djembe
Tabla & Congas

Sontronics DM-1T Tom Microphone Features

Cardioid condenser mic
Designed specifically for tom tom
Also great for other percussion
