To ensure comfort for hours of continuous use, the headphones feature an adjustable metal headband and high-quality protein leather ear pads with memory foam that adjust themselves to fit your head and minimize external noise. The unit's ULE MU metal shielding technology reduces the amount of radiation received by the headphones by up to 98%. They come with a 3m detachable cable with a bayonet connector and a 3.5mm audio jack. They also come with a gold-plated 6.3mm screw-on adapter as well as a neoprene storage pouch. A short 1.2m cable and velour and memory foam ear pads can be purchased separately.

S-Logic Natural Surround Sound

Uses decentralized driver positioning to take the direct sound of the headphones and reflect it off the surface of the outer ear in different directions before entering the auditory canal to create a natural three-dimensional sound

S-Logic Plus

Combines precision dampening with micro-acoustic reinforcement, allowing the driver, buffer-board, and spatial parameters to complement one another in an optimal manner

S-Logic EX

Uses a funnel-shaped arrangement for the transducer, which allows it to be positioned further away from the ear

Ultralow Emission MU Metal Shielding

Uses a metal shielding to reduce the radiation generated by the headphones by up to 98%

Memory Foam Earpads

Conforms to the listener's ears to ensure a snug and comfortable fit

Adjustable Metal Headband

Ensures the headphones stay in place

Ultrason Performance Series 840 Specs

Headphone

Earpiece Swivel	Yes
Foldable	No
Driver Size	1.6" / 40 mm
Magnet Type	Neodymium
Maximum Sound Pressure Level (SPL)	96 dB
Audio Connector to Source	1/8" / 3.5 mm
Adapter (Included)	1/4"
