Šifra: 14970

Kategorija proizvoda: Studijske Slušalice

Proizvođač: ULTRASONЕ

**Cena: 149,00 EUR**

### ULTRASONЕ Sirius aptX adapter

Once  
the

adapter is plugged in, you'll enjoy 4.1 Bluetooth wireless streaming over the high-quality aptX codec. Multiple Bluetooth profiles are supported, including A2DP, AVRCP, HFP, and HSP. The adapter will give you a range of 65.6' (line of sight) from your audio-streaming device, and will last between 8 and 12 hours on a single one-hour charge. Weighing only 0.4 oz, you'll hardly notice it's there.

## Purpose-Built for the Performance Series

Instead of expanding the qualities of the Performance series in a new model with Bluetooth technology, Ultrasonе have developed a module that turns every headphone in the Performance series into a Bluetooth headphone.

## aptX Codec

The transmission between headphones and your compatible device is made possible by the integrated aptX codec, an audio feature that promises CD quality with wireless Bluetooth transmission.

## Perfect Fit

The SIRIUS Bluetooth receiver is tailored precisely to the headphones of the Performance series. Its strongly curved shape is based on the design of the headphones and therefore hugs the housing precisely. If you did not know that a SIRIUS module is docked to a headphone, you will hardly notice it.

# Built-In Controls

The SIRIUS has three buttons for operation. Two of them form a volume rocker and regulate the volume, while the third button starts or pauses playback. An integrated microphone even enables the use of performance headphones as a headset for making calls with a smartphone, or makes a tablet usable for wireless communication while gaming.

## Long Lasting Battery

Thanks to the powerful battery, SIRIUS can be operated continuously for up to 12 hours.

### In the Box

- Ultrasone SIRIUS Bluetooth Adapter for Performance Series Headphone
- Limited 1-Year Warranty

## Ultrasone UL 21002 Specs

Compatible with	Ultrasone Performance Series Headphones
