

MARSHALL MG10G - gitarsko pojačalo

Šifra: 12762

Kategorija proizvoda: Gitarska Pojačala

Proizvođač: Marshall

Cena: 75,00 EUR

You
can

monitor your sound through the headphone jack, and jam along to your favorite songs when you plug your media player into the MG10G's line input. Connecting headphones to the amplifier automatically mutes the speaker, further bolstering silent practice.

Contour Tone Control

The contour control setting fine-tunes your sound, adjusting the highs and lows in relation to the mids.

Emulated Headphone Output

The emulated headphone output mutes the amp's speaker, making silent practice easier than ever. You'll also find an MP3/line input for playing along to your favorite songs.

Compact for Home and Rehearsal Playing

This compact amp is sized not just for home use but also for utilization at band practice.
