Launch your music making

Bright pads make it easier than ever to see your Ableton Live session and launch your sounds. It looks great too; full RGB colours perfectly match your clips and scenes. Seamless Ableton Live integration means Launchpad Mini brings your session to your fingertips, so you can spend more time launching and less time clicking a mouse.

Nothing holding you back

You can start making music today with Launchpad Mini. With its hands-on controls, tonnes of sounds in the box and our step-by-step interactive platform to get you set up, we've gone further than ever to make it easy to get started. Launchpad Mini is the grid controller for any Live performer.

Welcome aboard

Once you've plugged in your Launchpad Mini, you'll be brought to our online Easy Start tool. Download all the software you want with step-by-step video guides to get you set up with Ableton Live and making music in minutes.

Take it everywhere

Good things really do come in small packages. Launchpad Mini is our most compact, portable and lightweight grid controller, so you never have to leave it at home. Take it anywhere you go, so you can launch your sounds whenever inspiration hits.

Intuitive Ableton Live integration

Launchpad Mini gives you immediate and tactile access to Live's performance controls in a way you just can't get with a mouse. Step back from your computer and see your session and all your sounds on the 8x8 grid. Then, control your performance straight from Launchpad Mini with Stop, Solo and Mute controls.

Sound Collective

When you register your Launchpad Mini, you'll automatically gain access to Sound Collective. Get new free plug-ins every few months from some of the biggest names in the business, along with offers, discounts and more.

Splice Sounds

Get two months free access to Splice Sounds with Launchpad Mini, offering millions of high-quality, royalty-free one-shots, loops, and presets, with new releases daily. Take 100 credits per month for sounds, foley, presets, and MIDI files and join millions of artists using Splice to make all kinds of music, Grammy-winning albums, and cinematic scores.

64 RGB pads

Giving you a perfect reflection of your Ableton Live session, making it easier than ever to see your clips.

Ableton Live Integration

Quickly launch your clips and scenes at the press of a button. Stop, Solo and Mute controls make it easier and more tactile to control your performances, no mouse needed.

Three Custom Modes

Use Novation Components to customise mappings and control anything MIDI easily from Launchpad Mini.

Small, light

Launchpad Mini's slim, lightweight design means it'll fit into any setup, anywhere.

Get Started Easily

Use our online Easy Start tool to get all the software you want, and step-by-step video guides to get you set up with Live and making music in minutes.

Softube Time and Tone bundle – made up of four of Softube's world class plug-ins: reverb, delay, an easy to use mastering tool and distortion.

Sound Collective – bringing Novation hardware owners a new free plug-in every few months.

Software Compatibility

Ableton Live 10 Lite is included

If you already have Ableton Live it must be version 10 or greater to work with Launchpad Mini. We recommend that you update to the latest version as previous versions of Ableton Live do not include the Launchpad Mini integration for InControl. Launchpad Mini will also work as a standard MIDI controller.

Power Requirements

USB bus powered

Product Dimensions

180mm length x 180mm depth x 14.2mm height
