Music Ducking mode automatically reduces the level of Ch.2 when Ch.1 receives signal
Standard pole mount
Monitor wedge provides optimal angle for use as a floor monitor
Universal power supply
Flexible Inputs / Outputs
Channel 1 features a combo XLR-1/4" input that accepts mic or line signals
Channel 2 features a combo XLR-1/4" line input plus stereo 3.5mm input
Thru output contains audio from both input channels
Performance for a New Generation

These are the loudest, most powerful, and best sounding Thump loudspeakers ever, and they are ready to take on your most demanding gigs. Completely redesigned from the ground up, Thump has beefier drivers, 1400W Class-D amplifiers, and powerful tools to make your next gig easier than ever.

Music Ducking

You've got music playing nice and loud, but it's time for another announcement. Sure, you could mess with your levels every time, but who's got time for that. Simply press the Music Ducking button, and channel 2 will automatically turn down whenever you speak into the mic on channel 1.

Feedback Eliminator

Ever get a little too up close and personal with the microphone only to hear a loud, ear-destroying squeal? That's commonly known as feedback. And it's an unfortunate issue that physics won't change its mind on. But wait! Hit the Feedback Eliminator button and laugh in the face of those silly acoustic laws.

Mackie Thump215 Specs

Configuration Active 2-Way
Enclosure Type Bass-Reflex Loudspeaker
Total Power Capacity 1400 W Peak
Amplifier Class Class-D
Drivers
HF Driver 1 x 1" / 25.4 mm Titanium Dome Compression Driver
MF Driver None

MACKIE Thump 215 (komad) - aktivni razglasni zvučnik

The Thump215's mixer features two combo XLR-1/4" mic/line channels with dedicated gain controls, while an XLR output is provided for daisy-chaining additional speakers. A 3.5mm TRS aux input is also available on channel 2 for connecting your favorite portable player. The tough, impact-resistant polypropylene enclosure ensures protection from on-the-road wear and tear. The bottom of the cabinet provides a pole cup for mounting on a speaker pole or stand. The angled design allows the speaker to be used as a floor monitor for onstage
