# MACKIE M-Caster Live Portable White - podcast mikseta

Šifra: 16854
Kategorija prozivoda: Studijske Miksete
Proizvođač: MACKIE

## Cena: 97,00 EUR

Simply plug in your favorite XLR mic, gaming headset, or 3.5mm lavalier mic, sweeten the sound with the onboard ContourFX and StreamFX, and you're ready to stream in minutes. The ContourFX provides fast sound-shaping and enhancement through its presets, letting you focus on your stream rather than your sound. If you want more creative effects, the StreamFX offers fun voice-changing effects that are just as simple to use.

The M•Caster Live includes a variety of features such as dedicated headset and media player inputs, USB connectivity, an XLR mic input with phantom power, and user-selectable RGB lighting that looks amazing in any streaming setup. If you're on the move, just plug in an external USB battery pack and you're good to go with an incredible mobile streaming platform.

**At a Glance**
Connects directly to your smartphone’s headphone jack to both send and receive audio
Connect your favorite mic, headset, and more
Pick the perfect vocal sound with selectable ContourFX Presets
StreamFX makes it easy to add the finishing touch with fun voice-changing effects
RGB LED strip with 7 user-selectable colors looks great on camera
USB connectivity allows for use as an audio interface on a Mac/PC

**No Expertise Required**
Sure, reading a thousand posts in forums on how to sound good on stream can be fun, but you don't have time for that. Let M•Caster do the heavy lifting for you. Plug in, turn a few knobs to dial in your sound, and you're good to go.

**Stream a Little Stream**
M•Caster was designed to make it easy to get great audio on your smartphone for live streaming and content creation. Want to use your phone to go live but not a fan of the built-in mic? Ultracompact and ultra-capable, M•Caster packs all the tone shaping and connectivity you need without making things complicated.

**For Content Creators**
M•Caster was created with content creators at the top of the list. Every feature from easy tone shaping and effects to plug-and-play operation and ultracompact size, makes M•Caster the audio solution you've been looking for. And with its sleek looks and RGB lighting, you'll want it proudly displayed on camera for your next stream or video.

**Big Sound, Little Mixer**
At the heart of a M•Caster is some serious sound-shaping horsepower. Choose between an array of different ContourFX Presets that can add anything from thunderous depth to sparkly angelic tones to your

voice with the turn of a single knob. Dial it in just right with the ContourFX control on each channel. Try each profile preset and find your signature sound.

**The Finishing Touches**
Want to add a little audio flair to your stream? How about punching up your vocals to get the hype train really moving? M•Caster makes it easy with fun StreamFX voice changing effects that you can activate at the turn of a knob.

**Choose Your Mood Lighting**
Everyone knows that slick RGB lighting is what really makes your computer run faster (not really), so Mackie made sure that M•Caster provides that extra LED-fueled oomph that you require. All along the bottom is an LED strip with 7 gorgeous colors to choose from.

**Size Matters**
M•Caster Live's ultracompact design makes it insanely easy to take with you anywhere and capture pristine audio for your streams. Being powered via USB means you can plug in a USB small backup battery and use M•Caster for hours on the go.

**USB Yourself**
Just plug in with the included USB cable, tweak a couple software settings, and boom you've got that M•Caster sweetness direct into your computer. Easily integrate a phone caller into your stream by utilizing the Phone input and automatic Mix Minus will make sure the caller only hears you and not themselves.

**Powerful Accusonus Plugins Included**
Need a bit more refinement? M•Caster Live includes a lifetime license for the Accusonus ERA Voice Leveler and ERA De-Esser plugins plus 3-month subscription to Accusonus' All Access Suite, which gives you access to tons of great tools for audio repair, voice optimization, plus tens of thousands of royalty-free sound effects and background music.
