## NXT A100 SEE THROUGH RED BY EKO GUITARS OVERVIEW

NXT A100 features a 46mm nut, 635mm scale length and 14" radius. The NXT series guitars are instruments with 100% EKO features, an extremely affordable first price, and in addition a quest for detail and quality so that they can be not only the first, but also the 'next' guitars you will want to play. The NXT A100 comes in a high-gloss finish, with a design featuring soft, rounded shapes, dots on the fretboard in different sizes and the X logo on the 12th fret, giving it an elegant look; valuable details for an entry-level guitar. Perfect as a first guitar for taking lessons and practising, but also as the next guitar for more advanced players.

## NXT A100 SEE THROUGH RED BY EKO GUITARS BULLET POINTS

- Rounded design that provides great comfort;
- Spruce top;
- Excellent price/quality ratio.
