NXT B100ce SEE THRU BLACK BY EKO GUITARS OVERVIEW

The NXT B100ce Acoustic Bass Guitar is an entry level instrument with the Dreadnought shape body with cutaway, great sound and fantastic design. The high-gloss finish, bridge and headstock design, different size dots on the fingerboard, and the "X" logo at the 12th fret make this instrument stylish and recognizable. It features a Spruce top combined with Mahogany sides and back, Mahogany neck and South American Roupana fingerboard. It is Perfect for first instrument lessons and practice, but also as the next instrument for more advanced bassists who wish to upgrade their bass park on stage. Thanks to the Eko G03 preamp with volume, bass, midrange, treble, phase inversion and built-in tuner controls, you can easily connect it to your favorite acoustic instrument amplifier or directly to your P.A. rig. The NXT series basses are instruments with 100 % EKO features, an extremely affordable first price, plus a quest for detail and quality so that the basses in this series can be not only the first, but also the "next" basses you will want to play.
