Studio 12 is more than just lightweight; it's a feature-packed amp. With built-in valve-emulated overdrive, a 5-band EQ, Line In, headphone out, and more, it offers exceptional flexibility. Whether you're practicing at home, rehearsing with your band, or playing small gigs, the Studio 12 has you covered.

But it's not just about sound—the Studio 12 is built to last. Its heavy-duty tolex and chrome metal corners ensure it stays protected and stylish for years to come. Plus, it's incredibly easy to dial in your desired tone, with the EQ set at 12 o'clock providing that classic Ashdown warmth combined with articulate sound.

Constructed from super lightweight poplar ply and featuring a lightweight 12" speaker, the Studio 12 delivers outstanding tone without the back-breaking weight.
