Premium 2-Way Acoustic Architecture
Custom, independently tuned drivers for high and mid/low bands with a precision crossover. Each range works in its sweet spot for low distortion, true-to-source timbre, rich detail, and fatigue-free listening.

Material-Matched Drivers
4″ Paper-Cone Woofer + Dual 1″ Silk-Dome Tweeters — Paper delivers tight, natural mid-bass; silk provides smooth, extended highs and wide dispersion—yielding a coherent soundstage that is clear, refined, and never harsh.

Double Up. True Stereo. Bigger Stage
Pair two WiiM Sound speakers for dedicated L/R channels—wider soundstage, clearer vocals, pinpoint imaging. Set up in a few taps in the WiiM Home App.

AI RoomFit™ auto calibration
One tap in the WiiM Home App analyzes your room and placement using the speaker + phone mics, then

optimizes response for balanced, fatigue-free sound—no trial-and-error or extra gear.

Personalized sweet-spot
Adapts to where you actually sit and re-tunes in seconds after you move or rearrange, preserving the speaker’s intended tonality while keeping music clear anywhere in the room.
