The CLUB

boasts the best specifications and best sound, making it an ideal choice for Club DJs in any environment: studio, broadcast or club.
• The CLUB features a Special-Elliptic stylus that allows for **detailed sound quality**: Special-Elliptic stylus fits better in the groove and therefore has more contact area with the groove itself, extracting more intricate details, than is possible with a spherical diamond.
• The CLUB's 8 mV output voltage requires less gain from the preamps, providing **cleaner sound reproduction** and less susceptibility to feedback in live environments.
The CLUB offers an outstanding platform for archival and sampling.
