Cena: 219,00 EUR

NATIVE INSTRUMENTS KOMPLETE KONTROL A49- MIDI ^{GET}

HANDS-ON WITH YOUR MUSIC

Music-making is at its best when it's fast, fun, and physical. Find the right sound, make it your own, perform, and capture the results - all from a responsive, semi-weighted keyboard. Complete with four premium instruments plus MASCHINE Essentials, A-Series keyboards come with everything you need to bring your ideas to life.

FIND YOUR SOUNDS FASTER

With hundreds of presets to choose from, finding the right sound can be a chore. With KOMPLETE KONTROL, however, all of your KOMPLETE and NKS presets are intuitively tagged and organised, so finding the right one is fast and easy. What's more, you can hear a preview of each sound as you browse, without loading individual instruments.

Need some serious low end? Use the encoders and OLED display to select SYNTH > BASS > SUB BASS, then listen through the presets and load up the right one for your track.

PRE-MAPPED AND READY TO PLAY

All of your KOMPLETE and NKS instruments and effects are pre-mapped to the KOMPLETE KONTROL hardware by the people who know them best - the instrument designers themselves. Essential parameters like envelope controls and filter cutoffs are instantly displayed on the OLED display as you touch the corresponding knob. That means you can see exactly what you're adjusting in real time - whether it's in kHz, dB, or BPM.

PERFORM CREATIVELY

With Smart Play, you never need to worry about hitting a wrong note - just pick a scale and play. Activate chord mode to create a rich progression by playing single keys, then switch on the arpeggiator and turn it into an expressive musical performance. And for keyboard novices, Easy Mode maps the white keys to whichever scale you like.

CAPTURE YOUR IDEAS

No matter your setup, A-Series is designed to fit right into your existing workflow, with immediate access to transport, mixing, and editing controls in your favorite DAW. Logic Pro X, GarageBand, and Ableton Live are currently supported, with advanced integration for Cubase and Nuendo coming in a future update to the KOMPLETE KONTROL software. And if you're just getting started, the included MASCHINE Essentials allows you to capture and arrange your ideas direct from your hardware - no additional software needed.

INSTRUMENTS INCLUDED

With more than 6,700 sounds and 13 GB of content included, A-Series keyboards come with everything you need to start making music. Register your hardware and get two powerful synths, two meticulously sampled pianos, and more. Plus with MASCHINE Essentials, you'll have all the tools you need to go from inspiration to finished track.

And when it's time to expand your collection, you'll be eligible for a discounted upgrade to KOMPLETE 13 SELECT, KOMPLETE 13, or the full MASCHINE library.

MONARK

Monophonic synthesizer capturing every sonic nuance of the king of analog monosynths in spectacular detail – the holy grail of analog modeling.

THE GENTLEMAN

A classic upright piano that delivers balanced tone and a wide dynamic range, sampled from a vintage upright.

REAKTOR PRISM

Unique, responsive polyphonic instrument and effect, based on the innovative modal synthesis technology from REAKTOR.

SCARBEE MARK I

The sound of an iconic 70s electric piano – beautifully sampled and perfectly preserved in all its analog brilliance.

KOMPLETE KONTROL SOFTWARE

Browse and preview all your instruments and effects directly from your A-Series keyboard. This software also makes KOMPLETE and NKS instruments and effects accessible to visually-impaired users – feature coming shortly after initial release.

KOMPLETE START

KOMPLETE START lets you produce and perform with over 2,000 studio-quality sounds – all for free. Explore drums and percussion, bass, acoustic instruments, synths, pads and atmospheres, effects, and more. Everything is hand-picked from the go-to production suite for artists and musicians: KOMPLETE.

SOUNDS.COM

Enjoy two months of free access to over a million samples and loops from top artists and leading sound creators with Sounds.com. Add your sounds to a collection, sync with one click, and everything is tagged and ready-to-play in KOMPLETE KONTROL.

ABLETON LIVE 10 LITE

A lightweight version of Ableton Live 10. It comes with all of Live's essential workflows, instruments, and effects – everything you need to record songs.

E-VOUCHER

Along with your new keyboard, you will get a \$25.00 e-voucher to spend in the NI Online Shop.

INCLUDES MASCHINE ESSENTIALS

Get your ideas down fast with MASCHINE Essentials – a powerful groovebox packed with instruments, effects, and sounds for sketching out ideas, arranging them into tracks, mixing down, and more.

GETTING STARTED WITH THE A-SERIES

Don't feel lost staring at a blank screen. Whether you're making your first track, or wanting to step up your game, we're here to help. Take an in-depth look at all the controls and workflows of the A-Series keyboards

with this animated Quickstart Guide - a fun and interactive way to get up to speed.

UPGRADE AND SAVE BIG

When you're ready to take your music further, you'll be eligible for big discounts on powerful production tools like KOMplete 13 SELECT and the full MASCHINE Factory Library. Or go all-out and save even more with both. And for a daily dose of sonic inspiration, check out Sounds.com - each A-Series keyboard comes with one month's Essential subscription to explore the full library of loops and samples.

KOMplete 13 SELECT

The essential production suite - 16 premium instruments and effects, plus 5 expansions.

MASCHINE FACTORY LIBRARY

Expand your options by upgrading MASCHINE Essentials to the full 8 GB library - more kits, more instruments, more sounds.

SOUNDS.COM

Whether you're making soundtracks or soul, trap or techno, kickstart your creativity with Sounds.com - your daily source for loops and samples, powered by NI.

PRODUCE, PERFORM, PLAY OUT

Pair your A-Series keyboard with its compact beat making companion MASCHINE MIKRO for a fun, intuitive production setup: Tap out a groove on the MIKRO's RGB-backlit pads and layer on chords and melodies to ignite your idea. Once your tracks are wrapped up, it's time to kick off the party: TRAKTOR KONTROL S2 is a club-standard DJ controller that lets you take your mix anywhere.
